ORWELL 2K-POSEIDON

Orwell 2k-Poseidon video surveillance system for river and marine vessels

Orwell 2k-Poseidon provides 24/7 all-weather close perimeter security for marine vessels. Its state-of-the-art system allows for advance automatic warning of approaching vessels and people, prevention of intrusion, as well as detection and classification of emergencies on board. It also alerts the vessel's operators of oncoming obstacles like rocks or reefs.

System features:

- Vessel security models: offshore/marine/berth;
- warning the crew of approaching vessels and people or movement towards the reefs;
- detection and classification of emergency situations on board vessel;
- Touch Screen support.
